

Affirmative Dictionary

Cardiomegaly: heart size normal, normal heart contour , ...
Edema: lungs clear, pulmonary vasculature normal, ...
Pneumothorax: lungs fully expanded, pleural surfaces normal, ...
...

LLM

- normal pulmonary vasculature is noted
- Normal heart contour is identified
- clear lungs are detected
- ...

Affirmative MCQ

What are the findings on the chest imaging study?

- A. **Cardiomegaly is evident**, normal pulmonary vasculature is noted, and **pneumothorax is detected**.
- B. Normal heart contour is identified, clear lungs are detected, and **pneumothorax is noted**.
- C. **Cardiomegaly is observed**, **edema is present**, and fully expanded lungs are evident.
- D. Normal heart size is seen, **edema is demonstrated**, and normal pleural surfaces is seen.

- **edema is not seen**
- **Cardiomegaly is not identified**
- **edema shows no evidence**
- ...

Cardiomegaly	Edema	Pneumothorax	...
1	1	0	...

Input Sample

A. **Cardiomegaly=1**, **Edema=0**, **Pneumothorax=1**

B. **Cardiomegaly=0**, **Edema=0**, **Pneumothorax=1**

C. **Cardiomegaly=1**, **Edema=1**, **Pneumothorax=0**

D. **Cardiomegaly=0**, **Edema=1**, **Pneumothorax=0**

Binary Choices

LLM

What are the findings on the chest imaging study?

- A. **Cardiomegaly is evident**, **edema is not seen**, and **pneumothorax is detected**.
- B. **Cardiomegaly is not identified**, **edema shows no evidence**, and **pneumothorax is noted**.
- C. **Cardiomegaly is observed**, **edema is present**, and **pneumothorax is not visible**.
- D. **Cardiomegaly is not seen**, **edema is demonstrated**, and **pneumothorax is not apparent**.
